 Founder / Chairman

Dear Friends,
 Receive many greetings from our volunteers
 in Rwanda and from us here in Holland.

Foundation Stichting Geloof Hoop En Liefde (Faith, Hope and Love foundation); As a foundation we offer spiritual and material help to the traumatized people of Rwanda, by means of; The Sewing school, The Aids-Project, The Church, and the Vegetable garden.

On the picture the sewing school graduated students in Kigali, Rwanda: We have noticed since some time now that the focus on the sewing school has diminished by our other projects. As a result, we see the financial support diminishing for the school. That is why we want to highlight the situation of the sewing school, namely for those who graduated.

With the help of the sponsors in the past, we have been able to realize the sewing school in Rwanda. From collective income and individual gifts we can run the school through the years. However in the past we were confronted with the fact that people who had their education and gotten their diploma would not be able to make a start without a little help. It seemed that an own sewing machine and a starter credit was necessary. Because the ultimate goal of the sewing school, to teach the people a trade so they can generate their own income, was not reached. So we decided to make an effort to continue to help the people to be able to start for themselves. This way we are fundraising in Holland. Concerning the sewing machines, we have been getting help from your side until last year, in which we maybe had not highlighted the needs of the school enough. Never have we received help to specifically give the people a starter credit.

At the moment we are with a growing amount of students. Thirty people who have graduated are now waiting for a sewing machine. We want to help them in corporation with "Stichting Derde Wereld Werkplaats" in Teteringen, which delivers quality goods for small-scale projects in developing countries. They are revising sewing machines, and help us with the transportation to Africa.

We are concretely asking your help For these 30 sewing machines.

Costs: 30 x €75 = €2250

Costs for transportation and shipment to Africa: € 1850

Beside we want to ask you to help the graduated students with a starter credit for:

Costs: 30 x \$ 150 = \$ 4500

Perhaps you could also help us by guiding us to a known organization, institution or foundation, which can help us with these mini-credits.

Also the sewing school needs some extra machines to be able to regularly replace unusable machine, but at this moment we ask your help for those who graduated.

We are looking out with confidence to your help for these people in Rwanda.
