Dear Friends,
Receive many greetings from our
volunteers in Rwanda and from us here in
Holland.

From the 1st to the 20th of March I was in Rwanda for the foundation. My main goal was to find possibilities for the students of our sewing school to be able to work independent after the course which we give free of charge. Honestly I did not know where to start. I had a deep sensation that it was the right time.

During my stay in the sewing school, Association Hope, I got a surprise visit of the marketing manager of the company called "New Kigali Designers". He wants to help "Association Hope" and work together. This company produces uniforms and supplies all schools in Rwanda. (In all schools a uniform has to be worn) Also they make working clothes and clothes for hospital personnel etc.

In a nutshell; Very soon we want to begin working together with them on this. And this means that there will be future jobs for the graduated students of our sewing school !

The graduated ones can
earn their own money afterward

We have a new challenge in Rwanda;
We need 10 more special sewing machines which are faster.

Here in Holland we have found some very good and beautiful 2nd hand ones; 2 Button-Holers, 2 Cloths Cutters, 2 Lining (Sirifira), which we want to send via the "Derde Wereld Werkplaats".

It costs 7000 Euro. Can you help us?

In May the Ambassador of Rwanda paid us a visit at our home here in Enkhuizen. (She is standing in the middle)

A lot of the children of our "Aids Children Project" have finished their school but they now need a short training course to learn a trade.

Would you like to help these children with a short training course so they can find a job and start working and earning money for themselves?

We still need 3000 Euro for this project to help 20 youth.

We are looking forward to your support
