Dear Friends,
Receive many greetings from our
volunteers in Rwanda and from us here
in Holland.

Foundation Stichting Geloof Hoop En Liefde (Faith, Hope and Love foundation); As a foundation we offer spiritual and material help to the traumatized people of Rwanda, by means of; The Sewing school, The Aids-Project, The Church, and the Vegetable garden.

In Rwanda in 1994 there was a horrible genocide; the Hutu's were killing the Tutsi's massively. The calculated amount of dead is between 800.000 - 1.000.000 Even though the genocide happened 15 years ago the results are still visible today. Families are torn apart and the war orphans are now youths or young adults.

Our Foundation "Faith Hope and Love" 'Geloof, hoop en liefde' has for years been helping these youth and we are still very active in doing so. The foundation has started a sewing school and a project for schooling of children with Aids. Besides that we have started several projects in recent years. We believe it is now time for a new project to reach a new target group.

The new project

Already before the genocide the country knew great poverty caused by the low education grade and the high unemployment. The genocide has led the country to further poverty. Some families have handed care of their children over to others because there was not enough money to provide for care themselves. Other children have lost their family in the war and the children have landed on the street. The foundation wants to start helping these children.

To be able to reach the targeted goal of this project we want to involve society to help with the current state of the street children. We want to make them aware of their role in the improvement of the situation. This means that we will contact churches, the local governments, and whenever possible the families of each child.

Contents of the project

We want to start by setting up shelter for ten boys. We want to care for the children by providing food, clothing, a place to sleep, education, counseling and advice for their personal problems.

We want to serve as an in-between person for children who do not have family and help them wherever possible to reunite them with their family. We would need to trace the families and investigate their living situation. Even after unification the foundation will keep track of them to help solve any problems that might occur.

Please understand that this project is completely dependent on gifts. This project will need professional input. The foundation will do this through the Evangelical Church in Rwanda and its pastor Faustin Munyaneza. In cooperation with him a board will be assembled which will take care of the continuation of the project and the reporting to the sponsors.

It is a great challenge to be able to care for the street children in a responsible way. It will be a long term process. And they will have to be resocialized and their trust has to be regained and learn to live under authority. The relief and guiding needs to be of good quality to prevent that they will return to the street. That is why we want to invest in these children and we ask you for your help.

Attached you can see the budget for each of the separate parts of this project. In our times of recession it is difficult to raise funds. But still we want to freely ask you to support those whom really have nothing at all.

We wish you a Merry Christmas and a Prosperous 2010 !

The Foundation Stichting Geloof Hoop En Liefde (Faith, Hope and Love foundation) in Holland has founded "Association Hope" in Rwanda. We are helping Orphans, Aids-Children, Youth and Widows. See video images on: www.Geloof.Hoop.En.Liefde.Rwanda.nl
